PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington,
under the sanction of the Washington National

Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washinaron would rejuce to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratifude.

The Board of Managers recommend Mr. Pickett, formerly Yourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his wown risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the Monument will be, in any svent, applied to the support of the paper, nor the Society in any manner held pecuniarily responsible.

To give the public an idea of what may be do

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its success by publishing this prospectus. All moneys will be remitted, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlesey, Washington.

OFFICERS—Millard Fillmore, cz-cfficio President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor of Washington,) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, Iv R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Benj. Ogle Tayloe, Zlisha Whittlesey.

T. Hartley Crawford, kenj. Oglo Tayloc, Elisha Whittlesey.

Terms.—The MONUMENT will be printed on a doubleroyal sheet—the paper and type being of the best quality—
and in quarto form, containing sixteen large pages, that
it may be more easily preserved. The price will be two
dollars per annum, payable on the receipt of the second
number. The nature of the enterprise not admitting of
any credit, none can be given.

Societies and clubs will be furnished with the MONUMENT
are the following terms: 3 copies for \$5; 5 copies, \$8; 10
copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are
requested to forward their names to the General Agent.

copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument f, their names will be published in the paper. ASHINGTON, April 23, 1851.

tember 19, 1848.

THE distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes
charged with atmospheric air, by which it nearly doubles
in bulk, and obtains that peculiar smoothness, lightness,
and delicacy of flavor, for which the Ice Cream of our
best Confectioners is so highly prized.
3d. It does not require a tenth part of the labor that
the common Freezer does.
4th. It does its work better, producing a better article,
in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub
needs no replenishing during the operation.
The annexed testimonial from the Proprietor of the
Eutaw House will put to rest all doubt,
"Having witnessed the process of freezing Ice Cream
in Austin's Magic Freezer, two quarts of Gream having
been frozen in the incredible short time of six minutes, I

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the smalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fix tures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with pecular reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for pricets study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College for Boarding, Washing, Puel, Light, &c., with the desire and the faculty and control of the principal and permission of the Evelies. Latin enjoyed by academical students.

the College as can be promably enjoyed by academical students.

The charge for Boarding, Washing, Puel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dollar per session for incidental expenses, and a fee of eight dollars for Modern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

58 Folumes, with a complete Index to the first 47 Volumes.
Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding cach English volume separately, instead of, as formerly, two English in one American volume.
Price—For the first 43 vols., \$3 50 per vol.
For the succeeding, \$50 we have to the first and and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency or reprinting them in this country. Of the high value or these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has sequired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

British Crown Cases Reversed.

Three Volumes—\$9.

From 1796 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

In announcing the completion of their arrangements for the present season of emigration, the subscribers beg to assure their friends and public that every effort will be made by them to ensure a continuation of the patronage hitherto so ilberally bestowed upon their liques; and would carnestly impress on the minds of those wishing to send for their friends in the Old Country, that Mr. William Tapacott will personally superintend the departure of all persons from Idverpool, whose passage may be engaged at their office in New York, or by any of their Agents throughout the United States and Canada. This, they feel assured, is a sufficient guaranty for promptness, and a full security that passengers will be quickly and carefully dispatched. The subscribers are agents for the New Line of Liverpool Packets, viz. "Queen of the West," (Capt. P. Woodhouse; "Sheridan," Captain G. B. Cornish; "Constitution," Captain John Britton; "Garrick," Captain B. J. H. Trask; "Hottinguer," Captain Ira Bursley; "Roccius," Captain Eldredge; "Liverpool," Captain J. Eldredge; "Liverpool," Captain J. Eldredge; "Mines of Liverpool Packets, comprising the "St. George," "St. Patrick," &c. And many other first-class Packets, which this limited space will not admit of enumeration—sufficient in number, however, to despatch a Packet from Liverpool at least every five days, thus preventing any delay whatever at that port.

The Glasgow Inne of Packets, comprising 24 ships, sail on the 1st, 8th, 16th, and 24th of each month.

The Ships comprising the above Lines are already well known to be all of the first and largest class, commanded by the most experienced men, in the different trades, are fitted up strictly with an eye to the comfort of passengers of every grade, and will sail punctually on their stated days.

I'me Testimony of one of our Lawyers.—

Mr. Jas. L. Hamilton.—Dear Sir: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have supposed in the formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very eggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaclation, and inpaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derengies of the digestive organs, and

of every grade, and will sear peacetain days.

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT,

March 14, 1851.

T being desirable to substitute locks and keys of so It being desirable to substitute locks and keys of some of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

written notice to that enect, not more than nine nor rest than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract

ceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post of the Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to falifi faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract new with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample ascurity, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper in spection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his abilit

Letter from the Hon. Henry Clay.

ABILAND, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and agusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hestiation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and gregard, I am truly your friend and obedient servant, Freeman Hunt, esq.

BALTIMORE PIANO FORTE MANUFACTORY. ELASTIC* UNIVERSAL TOUCH.

WISE & BROTHER, Manufacturers of Boudoir, Grand, and Square Pianos, request those who would be assured of a first class Piano, one that ladies can perform on with the greatest possible advantage—one that the toverham be instantly adjusted to the exact strength of the fingers and movement of music, one that will stand in concert tune, one that the tone will not become shrill and grating, that is chast of style and elegantly made up of straight and regular curve lines, that will last an age—to straight and regular curve lines, that will last an age—to five them a call. The ancient standing of the Baltimore Factory, and liberal patronage of clinens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Boudoir, for style, power, and compress of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Messra. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panerama of steamboats and coascless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one tra expense, and is sufficiently capacious to accommodate seventy-five patients.

MEDICAL DEPARTMENT.

The institution is under the general supervision of 8. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Danaville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unweared pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. An sniightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational fove of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably effectious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and dearableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
